THE MAIN SOLD.

Doran and Loughran
the Purchasers.

It is with no little satisfaction that we chronicle this week the sale, by O. D. Jackson, of the "Main" farm to M. J. Doran and J. W. Loughran. The sale price is not disclosed at this time but we understand it is in the neighborhood of \$25,000 at which figure it most assuredly is a very attractive bargain.

The sale was negotiated by Mr. W. D. Turner, of the Southern Land Co. of this city and Madison, Wis., and while it is not the largest sale made by this Company in this vicinity this year, we consider it of the most importance to this city.

Mr. Doran and Mr. Loughran are extensive and wealthy farmers of Edgerton, Wis., and both are respected and influential in their community. Their judgment of soils and land values is rated very high and their coming here will have much influence.

We have always believed Virginia land second to none and especially have we valued the dark chocolate soil of the James River slope. And it is very pleasing to us to have our judgment confirmed by such men, who back their judgment with their money.

These gentlemen made a thorough and exhaustive examination before purchasing. Mr. Doran came to Williamsburg with Mr. Turner first in February of this year spending some three weeks here investigating. He was then joined by Mr. Loughran who went with them over some of the property considered desirable, after which they returned to Wisconsin. On June 7th Mr. Loughran again visited Virginia with Mr. Turner, this time confining his investigations to the land immediately around Williamsburg, and after again conferring with his Wisconsin people they decided upon the "MAIN" near Jamestown Island as the most desirable property to be found.

These gentlemen are both very prominent and influential in Catholic circles and their coming assures us a Catholic Church this coming winter. Mr. Loughran's brother, the Rev. Father Loughran, of Nebraska, is now arranging to come to Williamsburg and vicinity for a year and will come as soon as he can arrange to leave his large congregation that length of time.

Messrs. Doran and Loughran will remove, with their families, to the "MAIN" about November 1st when they secure possession.

The Southern Land Company, of which Mr. C. B. Chapman is President, has been operating only since January 1st of this year, but in locating such men as are these gentlemen, and Mr. E. M. Thorpe from Monroe, who bought the Dr. Garrett farm; Mr. E. E. Thompson, a leading greenhouse man from Madison, who bought the 180 acre farm near York River, Mr. T. Daley who bought the Oriana State Mill property; Mr. George F. Pomeroy and Mr. Ed. Ward Saxly, extensive farmers who bought large farms near Providence Forge, this Company are doing a work which is much needed and are certainly deserving of all the encouragement this community can hold out to them.

Long may they live and prosper.

Mr. Turner is again here accompanied by Mr. John Covell and Mr. Geo. Lowe, of Fargo, N. D.

Startling Evidence.

Fresh testimony in great quantity is constantly coming in, declaring Dr. King's New Discovery for Consumption Coughs and Colds to be unequalled. A recent expression from T. J. McFarland, Bentonsville, Va., serves as example. He writes: "I had Bronchitis for three years and doctored all the time without being benefited. Then I began taking Dr. King's New Discovery and a few bottles soon cured me." Equally effective in curing all Lung and Throat troubles, Consumption, Pneumonia and Grip. Guaranteed by L. Henley, druggist. Trial bottles free, regular sizes, 50c. and \$1.00.

A Cure for Headache.

Any man, woman or child suffering from headache, biliousness (or a dull drowsy feeling should take one or two of DeWitt's Little Early Risers night and morning. The Eminent Kidney and Bladder Specialist.

The Discoverer of Swamp-Root at Work in His Laboratory.

There is a disease prevailing in this country most dangerous because so deceptive. Many sudden deaths are caused by it—heart disease, pneumonia, heart failure or apoplexy are often the result of kidney disease. If kidney trouble is allowed to advance the kidney-poisoned blood will attack the vital organs, or the kidneys themselves break down and waste away cell by cell. Then the richness of the blood—the albumen—leaks out and the sufferer has Bright's Disease, the worst form of kidney trouble.

Dr. Kilmer's Swamp-Root the new discovery is the true specific for kidney, bladder and urinary troubles. It has cured thousands of apparently hopeless cases, after all other efforts have failed. At druggists in fifty-cent and dollar size. A sample bottle sent free by mail, also a book telling about Swamp-Root and its wonderful cures. Address Dr. Kilmer & Co., Binghamton, N. Y., and mention this paper.

MRS. L. W. LANE, Jr.

Passed Away Tuesday
Afternoon.

Our Community was shocked to hear of the death of one of our favorite citizens, Mrs. L. W. Lane, Jr., who passed away Tuesday afternoon in Norfolk.

Mrs. Lane was taken ill Saturday night, and Sunday morning was taken to Norfolk for medical treatment. An operation was performed, but the patient never rallied, passing away at about 4 o'clock.

Mrs. Lane before her marriage to Col. L. W. Lane was Miss Lizzie Jordan, of Smithfield. They were married in 1888. She was known for her sweet voice, and many here and elsewhere will remember how willingly she gave of her talents to all worthy and noble causes.

The funeral took place Wednesday afternoon from the family residence, and was largely attended. The services were conducted by her pastor, Rev. E. A. Potts, of the Methodist Church, assisted by Rev. W. A. R. Goodwin, rector of Bruton Episcopal Church, and Dr. L. B. Wharton of William and Mary College. Mr. and Mrs. E. H. Clowes, of Richmond rendered several touching hymns.

The active pall bearers were Messrs. R. L. Spencer, N. L. Henley, T. H. Geddy, A. Brooks, J. T. Christian, H. S. Bird, E. W. Warburton and Dr. Van Garrett. Honorary—Mrs. L. S. Foster, G. A. Hankins, D. J. King, J. L. Hall, Messrs T. J. Stubbs, H. N. Phillips, J. B. Spencer and John L. Mercer.

The interment was in Cedar Grove Cemetery.

The saddest part, perhaps, of Mrs. Lane's death is that she leaves six small children, who will miss her loving care. She was a devoted mother and wife, and the bereaved husband and children have the heartfelt sympathy of many friends here and elsewhere.

Sued by His Doctor.

"A doctor here has sued me for \$12.50, which I claimed was excessive for a case of cholera morbus," says R. White, of Coachella, Cal. "At the trial he praised his medical skill and medicine. I asked him if it was not Chamberlain's Colic, Cholera and Diarrhoea Remedy he used as had reason to believe it was, and he would not say under oath that it was not." No doctor could use a better remedy than this in a case of cholera morbus. For sale by J. H. Stone.

Former Students.

Among the well known former students of William and Mary who returned to their alma mater for a few days were Southall Farrar, of Amelia, R. H. Tucker, of Oklahoma, Spratley, Booneville, Taliaferro, Weymouth, of Hampton, Percy Stephenson, of Norfolk, Judge Amos Ackiss, of Princess Anne, and Dudley R. Cowles, of Richmond.

Their many friends in town were glad to welcome them back to the old haunts, and hope to see them here often in the future.

CHRISTMAS DECORATIONS.

Glass Bubbles Which Adorn Trees Are
Manufactured by German
Peasants.

"The glass balls of many colors used to decorate Christmas trees," said a toy dealer recently to a New York Sun reporter, "are made in Germany, some of them in factories, but more of them in the homes of people dwelling in parts of the Thuringian mountains. Among them this trade has been handed down from generation to generation, all the members of the family working at it in one way or another."

"Some member of the household goes to the nearest town at which this work is given out, and where the finished work is collected, and gets a bundle of the glass tubes from which these glass balls are blown. More than once I have met these messengers trudging homeward with bundles of glass tubes, carried like so many bundles of sticks. 'In every home where they do this work they have a suitable furnace for heating the glass, and at this the one most proficient sits and blows the pretty glass bubbles, which others sort and pack; and in due time the bright glass balls thus produced in these mountain homes are carried back to the collecting centers, to find their way thence to other homes all over the world.'"

METHOD TO FIND BREAKS.

Chicago Surgeon Proposes Use of Tuning Fork in Locating Bone Fractures.

A very simple method of locating fractures in bones, particularly in long ones, by the aid of a tuning fork, is proposed by a Chicago surgeon.

A stethoscope is placed over the bone as near as possible to the point of suspected fracture and on the side where the skin is thinnest. Then a vibrating tuning fork is placed against the flesh near the bone, but on the other side of the fracture, if possible. If the bone is continuous, a distinct, clear sound will be heard in the stethoscope, but if the break is between the two, this sound will be faint and irregular as the vibrations will not be transmitted past the break.

Of course, says Collier's Weekly, this depends upon the fact that hard bone is an excellent conductor of vibration, while tissue is not. Perhaps even a more valuable application of this idea would be in finding out when a break has knitted properly, for when the joining is again perfect the sound will be as clear as that of an unbroken bone.

Thrown from a Wagon.

Mr. George H. Babcock was thrown from his wagon and severely bruised. He applied Chamberlain's Pain Balm freely and says it is the best liniment he ever used. Mr. Babcock is a well known citizen of North Plain, Conn. There is nothing equal to Pain Balm for sprains and bruises. It will effect a cure in one-third the time required by any other treatment. SAMUEL HARRIS.

Samuel Harris, one of the best known colored men in eastern Virginia, and a leading and wealthy merchant of this city, died last night at 6 o'clock, after an illness of several months.

Samuel Harris came here in 1872 a very poor man. By dint of hard work he amassed a considerable fortune. He was a good citizen and a pushing and energetic business man. He opened West Williamsburg, now one of the prettiest sections of the town. He was born Dec. 21, 1851.

The funeral will take place tomorrow at 2 o'clock, from the First Baptist Church.

Weak Hearts

Are due to indigestion. Ninety-nine of every one hundred people who have heart trouble can remember when it was simple indigestion. It is a scientific fact that all cases of heart disease, not organic, are not only traceable to, but are the direct result of indigestion. All food taken into the stomach which fails of perfect digestion ferments and swells the stomach, puffing it up against the heart. This interferes with the action of the heart, and in the course of time that delicate but vital organ becomes diseased. Mr. D. Kaible, of Nevada, O., says: "I had stomach trouble and was in a bad state as I had heart trouble with it. I took Kodol Dyspepsia Cure for about four months and it cured me."
